REPUBLICAN NOMINATIONS.

Judicial Election—Tuesday, April 5.

For Judges of the Superior Court—
VAN H. HIGGINS,
GRANT GOODRICH.

For Deputy Clerks of the Superior Court—
CASPAR BUTZ,
U. R. HAWLEY.

The Close-Corporations.

The parturient throes of that close-corporation known as the Peoples' Committee, have ceased, and the result is—nothing! As much was expected when their labor began. They were deceived in regard to the reported dissatisfaction in the Republican party—deceived in the willingness of the no-partisan Democracy to aid in the conduct of a political contest which would not result wholly for their advantage, and were egregriously deceived in the estimated importance, to the people at large, of the work in which they have been engaged. We take it, that, by this time, these gentlemen are well convinced that the Republicans of Cook county are satisfied with the ticket which has been presented to them by the delegate convention, and that the nominees thereon will surely be elected. The close-corporation will go into dissolution—the members of the same being wiser and happier men for their brief and painful experience in attempting the regulation of affairs which the people had beforehand adjusted to suit themselves.

With the retirement of the Committee we shall probably have a demonstration of the Democracy undisguised. They have been industriously at work to put themselves in readiness to take advantage of whatever movement "the people" might make, and now, with their men in condition for the fight, we shall be disappointed if they let the prizes be carried off by their default.

Douglas in Cleveland.

The Democracy of Cleveland, Ohio, are divided into two bitter factions, one of them under the leadership of Grey, of the *Plaindealer*, goes for Douglas and "unfriendly legislation." The other, led by Flood of the *Democrat*, supports Buchanan and "State equality." The two segments measured strength last Saturday, in a contest for the mayoralty, in convention. The Soft Shells or Douglasites won the day by four votes. Coffinberry, Soft, had 29 votes, to 25 for Brownell, Hard. It was "close nicking." When the result was announced the Douglasites yelled and cheered, and the Buchaneers groaned and hissed.

A few months ago the star of Douglas was high in the ascendant. Four-fifths of the Cleveland Democracy were his devoted followers. The Buchaneers were a feeble faction. But the events of last winter, at Washington, have discouraged his backers and inspired his enemies. His chances of the Charleston nomination having faded into mist, his "friends" are turning up among the missing. They consider him played out, and so drop him, incontinently.

Latest from the Straits.

The Detroit *Tribune* of the 26th inst., says: "The mail carriers which left the Sault St. Mary on the 6th inst., and passed the Straits on the 9th, arrived in this city last evening, having been about three weeks coming through. When they crossed the Straits the ice was still thick but yielding to the weather, so that it had become unsafe for teams. On the outside of the Straits, however, the ice was all broken up, and they think that by this time the Straits must be open. There was no ice at all this side of Bois Blanc, and no snow. There was some snow and ice around the Sault, and the ice was giving way."

THE CITY.

What's Fame?—"J. Brown!"—oh neighbors of the *Journal*.

Christy's Minstrels in Chicago.—The veritable George Christy, with his inimitable minstrel corps is performing at Mechanics' Institute Hall, opening his season last evening.

Sale of Real Estate.—E. C. Cleaver has sold for C. R. Starkweather, Esq., to Rev. J. A. Wight the lot 25 feet on Michigan avenue, just south of Twelfth street, for $5,000, with improvements.

Clark Street Improvement.—There will be a meeting of the property owners of South Clark street at the Common Council Chamber, on Thursday evening to consult and take action for the speedy improvement of that street.

☞ McNally & Co., have always on hand complete sets of Our Musical Friend, a weely publication which contains twelve pages of first class music, and is sold at the very low price of ten cents per copy.

Education Reports.—We have received the advanced sheets of the Fifth Annual Report of the Superintendent of Public Schools, including the first report of Luther Haven, Esq., the President of the Board of Education, a new and profitable feature in the school reports.

Larceny of a Rope.—Thomas Walton was arrested on Saturday for stealing a rope from the barque E. B. Morgan. He has been held to bail by Justice Davis in $500 bonds. He need mend his morals, or the State may supply him with rope free some day.

Mortgage Sale.—Great sale of first class Hotel Furniture. C. H. Keeth & Son, Auctioneers, will sell out to-day that first class Hotel known as the Granite House, formerly Stanwix Hall, situated on the corner of Clark and Van Buren streets. For particulars see advertisement in another column.

The Alleged Swindling Case.—R. F. Winslow was yesterday discharged from custody by Justice Wallis, the examination showing that the title to the farm was about as bogus as the jewelry. Mr. Winslow agrees to trade back, which places matters as they were, but for the disagreeable traces of a transaction entirely unworthy one of these parties.

Land Sale.—C. H. King, Esq., sold yesterday to Andrew Brown the lot 80 feet front on Michigan avenue by 180 feet deep, a little north of Twelfth street and directly south of and adjoining the residence of Hon. R. S. Wilson, for $250 per front foot—$29,000—$11,000 cash in hand, balance in one and two years with six per cent interest. The property will be recognized as the former residence of J. Y. Sawyer, Esq.

Yesterday's Rain.—The heaviest rain that has fallen this year, commenced yesterday morning about 2 o'clock. For the first couple of hours it lightened and thundered incessantly. All day, with a brief cessation, it continued to pour down. More cubic inches of water fell than during any day this year. If this rain has been wide spread, we may expect to hear of great floods and overflows, particularly of the streams that empty into the Ohio River.

Police Court.—Monday's docket at the Police Court was very small, embracing the following cases: Michael Coyle, from Wisconsin, a professional beggar, drunk, $15; John Foley, drunk and fighting his brother-in-law, F. Larrigan at his house on Kinzie street, $9; Patrick Brum, drunk and asleep in the street, $5; J. Coffee, who has been drunk for a week, $3; Henry Wells came into the city Saturday and into the watch house Saturday night, drunk, and paid $3 for the luxury; Hugh Lynch was fined $30 for vagrancy.

New Medical College.—We learn that the medical department of Lind University has just been established. Convenient rooms have been provided in the central portion of the city, and ample means for illustration will be at the command of the faculty. The basis on which the University rests and the character of the gentlemen comprising the medical faculty are such as to warrant the success of the enterprise and secure to it the confidence and patronage of the profession.

The first session will commence next October.

The North Side Claim of Dower—Statement of the Case and Claim.—Doubtless some excitement was caused among owners of real estate in Wolcott's Addition in the North Division, by a paragraph in our columns yesterday morning, relative to the claim set up, and proceedings about to be instituted to recover the alleged dower of Mrs. Frances B. Nicoll, of Brooklyn, to—as incorrectly stated by us—one-third of the annual income of "the whole of Wolcott's Addition."

Instead of this, it is upon one hundred and fifty lots in Wolcott's, and one hundred in Kinzie's Additions the claim of Mrs. Nicoll being for her dower in six eighteenths of the same lots, or rather to a third of their income. Property-owners exposed will be able themselves to discover the "infected district" by referring to their title deeds in the light of the following statement.

In and about the year 1835, Charles Butler, of New York city, made large purchases of real estate in Chicago. In the spring of 1842 Mr. Butler conveyed an undivided one-half of the same to Edward A. Nicoll and Orsamus Bushnell, as Trustees for an association of owners.

In the same year Nicoll and Bushnell declare that they hold in trust 6-18ths (six eighteenths) of the said undivided one-half, for Edward A. Nicoll, his a beneficial interest, the residue in trust for other parties named.

In December, 1842, Nicoll, who was connected with the New York Life Assurance and Trust Company, found his relations to that Company under a cloud, and he suddenly absconded, having previously made an assignment to Abel T. Anderson, of New York, of the six-eighteenths, to be sold to apply on his indebtedness to the Company. In this deed of assignment to Anderson, Mrs. Nicoll's name did not appear; hence as no party to the conveyance, she claims her right of dower to the same.

In January, 1843, partition was made between Charles Butler and Orsamus Bushnell—the latter as trustee. Nicoll being "non est inventus" for reasons named, did not join in this partition, which conveyed to the trustees a portion of the lots in severalty in lieu of the undivided one-half. In 1845, on application of parties in interest a decree was made in the Cook County Court of Common Pleas, confirming the partition deed, on the ground that Nicoll, having by conveyance in 1842, (to wit: the assignment to Anderson), parted with his beneficial interest, and was merely a naked trustee when the partition was made.

Mrs. Nicoll, who, according to well accredited rumor, asserts that the original investment by her husband was with money of her own, claims her right of dower in the property conveyed by her husband to Anderson at the assignment, which amounts to one-ninth (her third of six-eighteenths) of the lots conveyed by Charles Butler, in Jan. 3d, 1843, to Edward A. Nicoll and Orsamus Bushnell, the partition deed being recorded in Book nine, (9) page two hundred and forty of the County Records, which, of course, is the best reference to be given to all anxious to discover whether their own lots and possessions come within the same.

Nicoll has not been heard from since he absconded in 1842, and is believed to be dead. The widow is about fifty-one years of age, the dower, if established, will exist during her life.

Messrs. Arrington & Peabody, Mrs. Nicoll's attorneys, on Saturday last served, as we have before stated, notices of suits instituted upon owners of the property involved. As to the amount of the same, there are various estimates. The case, and the points of law involved, which we do not venture upon here, have occupied leading lawyers pro and con for some time past.

A Lake Street Store Robbed of $500 in Goods.—On Sunday night last a party of one or more of the dishonestly disposed, though probably more than one made up the party, effected an entrance into the clothing store of Hawley & Eaton, No. 83 Lake street, and robbed it of about $500 worth of coats, vests, pants, shirts, cravats and other goods. Everything in the store was overhauled. Drawers were ransacked and the desk was broken open and the safe key obtained. Not understanding the combination lock, the burglars decamped with their booty, leaving the key in the lock and everything in the store upside down. The rascals effected an entrance by breaking a light of glass in the front door.

Accidental Drowning.—The name of the man who was found in the lake on Saturday, is P. G. Reimers. His body was identified on Sunday by his wife, who lives at No. 89 Kinzie street. She states that he left the house Saturday morning, about eight o'clock, saying that he was going over to the lumber country, by propeller, to find work. The drowning was therefore evidently an accident. He is represented to have been a worthy man. He had been married only two months.

Pure Water.—*Editors Press and Tribune:* The idea that I want to present to the people of Chicago for their consideration is in regard to our hydrant water—that element which is so natural and proper to our healthy existence. I would like to ask them if the water that we have been using and are using, and, from present appearances, are likely to use, is good enough? If it is not good enough, then I think it is proper that some one should suggest a reform in regard to it. We all know how very particular we are in regard to our ice being pure and of the very best quality—the Crystal Lake ice being preferred on account of its purity, and our river ice rejected on account of its impurity. If we reject the river ice on account of the impure streams that empty themselves into it, have we not a greater reason to reject the water? For the ice is but congealed water through means of freezing, and this very freezing process destroys many of the impurities contained in its uncongealed or liquid state. Now I would ask how much better is the water we daily and hourly use than the river water that we reject when formed into ice? We all know that the city is drained into the river, and that the river empties into the lake, and, if I mistake not, there are a great many sewers on the South Side that run, or did run, directly into the lake itself. Now, with this state of facts before us, what is the effect? Why, it is simply this: the wind blowing from the east or southeast lashes the water into fury, and the filthy deposits laying around the edge of the lake and the mouth of the river are thus stirred up, and the water consequently becomes very impure for miles running north and south, and I should say from a mile to a mile and one-half running east. I believe the present Water Works take suction from the very edge of the lake, and the consequence is that we get the water in this mixed up state, a sort of half-and-half way—half mud, the balance filth.

I do not mean by this communication to censure our Water Commissioners, or any one else, for they have done all that could be done under the circumstances, but my object is to cause if possible an inquiring spirit, and to see if something cannot be done in this truly important matter. For one, I would suggest that a large tube be run out into the deep water beyond the impure line and into the clear, good, old-fashioned lake water, say, if you please, two miles, more or less, as the case may be, Then we will get water that will please the eye and suit the taste, and nourish and comfort the body. The next question that would arise is, what kind of pipe could be laid so far out in the lake? I think there might be one made of Gutta Percha, or some similar substance; but this part of the arrangements I leave to older and wiser heads than mine to make. I think that if a telegraphic cable can be laid under water, and messages transmitted through it, we surely can lay a pipe of some kind from the Water Works into the pure water of good old Lake Michigan.

A Lover of Pure Water.

As to the Street Commissioner.—*Editors Press and Tribune:*—Have we a Street Commissioner for the South Division? If so, you will confer a great favor upon the residents of that Division by jogging his memory in regard to the condition of the paved streets. They certainly are in a most *filthy* condition, and if he would only *try* he would find that they could be kept as clean as the streets in any city, with but very little cost over what he now pays for shovelling the mud out of the gutters—to say nothing of the cost of cleaning the sewers of the mud which is now carried into them by the wholesale. Between mud on wet days and dust on dry days, we are sorely afflicted.

Tax-Payer.

COMMUNICATIONS, &C.

On motion and petition Roswell Scott and A. C. Otto were appointed Police Constables, and the appointment of C. T. Bogue to the same office was referred to Committee on Police.

A petition was presented claimed to represent the property owners interested, asking leave to contract for paving South Clark street between Madison and Monroe streets with "Buffalo Block." After discussion the matter was referred to Committee on Streets and Alleys of the South Division.

Ald. Myers presented an order asking the reference to a committee of the Financial Report of the City Comptroller for 1858-9. After discussion the order was laid on the table.

Petition of L. S. Major referred to Committee on Claims.

Communication of Superintendent of Public Schools from Board, asking the erection of a Public School building. The order was laid over under the rule.

Ald. Myers presented an order that an ordinance be prepared and passed fixing and establishing an official bond for the police.

Ald. Taft presented sundry petitions for filling and paving. All referred to Committee on Streets and Alleys, West Division.

A communication was presented urging that the city raise money on city bonds, to pay street contractors as the work progresses. The city to look to assessments for reimbursement.

Ald. Long moved to refer same to the Chairman of the Committees of Streets and Alleys of the three Divisions.

Ald. Ward would prefer to refer to Committee of the Whole. The matter was laid over under the rule.

Petition of S. S. Greeley, asking that the Mayor and Comptroller be authorized to execute to him a city bond payable in one year, to pay him dues of about $4,000, for paving of portions of Washington and South Clark streets. The city to be reimbursed from assessments on same. Referred to Judiciary Committee.

REPORTS OF CITY OFFICERS.

An ordinance was presented by Comptroller authorizing City Comptroller to issue bonds under certain circumstances.

Also from same petition for leave to sell tax certificates. An order was passed authorizing the same.

Communication from Sewerage Board asking approval of Council to the loan contemplated. Referred to Finance Committee.

Communication from Comptroller with ordinance relative to the opening of Owen street. Accepted and order passed.

OFFICIAL BONDS, ETC.

Ald. Long presented an order, which was passed, that the bonds of the several officers be spread upon the table.

Official bond of A. F. C. Mueller, City Collector, $50,000, was presented and referred to Committee on Finance and City Comptroller.

Ald. Jones, of Committee on Streets and Alleys, presented an order authorizing the property owners on Clark, between Madison and Monroe streets, to pave that portion of said street with "Buffalo Blocks," the same to be completed within forty days after the plank are removed.

Ald. Ward opposed the plan of allowing property owners to attend to such improvements. He had seen the folly of it.

Ald. Long hoped the order would be withdrawn to give place to an order in usual form for City Comptroller to advertise for bids.

Ald. Abbott wished the original order as presented to pass. The petition represented the entire number of owners of property.

Ald. Long referred as an instance of the evil apprehended, the North Branch improvement. He was in favor of getting in the bids for the same before the Council. He should object to the order.

Ald. Jones presented an order amending his former one authorizing advertisement for six days, for improvement of said street.

Ald. Myers objected and the order was laid over.

Ald. Long moved that the City Superintendent advertise for bids for the improvement of Madison street from Clark to State street.

Ald. Abbott presented an order that the City Superintendent advertise for six days for bids for filling and walling South Clark street, from Monroe to twelfth street, the paving of the same with the "Nicholson Pavement," to be let to the proprietors of that patent at the price of $1.60 per square yard.

A substitute for the order was finally passed to advertise for six days for bids for paving with the Nicholson Pavement, and also block stone.

Ald. Harris thought each block should be represented, to give to each block as the property owners may desire. He would move to include the cobble stone pavement in the advertising for bids.

Ald. Carpenter asked if a majority of the property owners on South Clark street had asked for the Nicolson pavement.

Ald. Abbott said large majority of them, nearly three fourths, had asked for it.

The substitute was adopted—Ayes 11, Nays 1.

A new assessment was ordered for improvements on Clark and Washington streets.

An order was presented for the improvement of Rush street from Rush street bridge to Chicago avenue, by filling curbing, etc., and McAdamized—to be finished with the "Joliet Gravel," in accordance with the property owners.

Ald. Carpenter moved that the Clerk open the bids for Lake street bridge, which were read as follows:

1st. With the exception of filling—$12,465, $400 allowed for present structure—C. T. Hotchkiss.

2nd. For approaches and structure, $13,465—$175 allowed for old structure, or $9,565 for bridge and filling at 37 cents per yard—Newton Chapin.

3rd. Superstructure approaches, $13,000—Wm. Twedale.

4th. Superstructure ditto, 13,000—Dow Bogart.

5th. Bridge on Howes plan as specification, $12,500—L. B. Boomer.

The bids were referred to Committee on Harbors and Bridges.

An order presented by Ald. Long to advertise for bids for improvement of Michigan Avenue was discussed by several Aldermen and finally passed—ayes 12, noes 6.

Ald. Wahl moved to take up the ordinance as to the Cemetery, which was passed.

The Council adjourned at 11 P. M.

First Quarterly Report of the Matron of the City Bridewell.—I entered upon the duties of Matron to the Bridewell or City Prison on the 1st of January. At that time the number of women under my care was somewhere in the neighborhood of sixty. These women had minds capable of improvement if rightly approached, but, at the same time, minds needing the greatest care and observation in directing them properly. The prominent object of my labor with them was to meet every peculiarity of temper in the right way—to touch the right chord, thus causing it to vibrate to that influence best calculated to draw out a purity of thought and feeling which would lead them to better lives hereafter.

In some instances I have been enabled to succeed. Three have gone out from those walls renewed, as I believe, in heart and life, by the power of divine grace. Others, instead of returning to their former course of sin, have been well cared for and provided for with homes by Rev. E. F. Dickinson, while several have found a home and excellent care in the Magdalene or House of Refuge for repentant females, at Price Place, on the West Side, belonging to the Sisters of Mercy of the Catholic Church. One, who had gone very far astray, has returned to the paths of virtue, and is united in marriage to a respectable man, and is well settled in life. Seven or eight, at least, we hope have been saved from going on in their former ways, and are doing well. While this is the case with a few, we feel encouraged at the evident improvement in the manners and general deportment of most of the women.

The condition of the prisoners of both classes in the Bridewell is good, better than in most prisons of the kind. The wards or cells, and everything throughout the prison is as neat and clean as can be; their food is abundant, wholesome and good—more so than the small sum allowed the keeper will warrant—the punishments are not severer or more frequent that is absolutely necessary.

The number of women has diminished considerably, yet for the last week it has been increasing again.

In our next quarterly report we will endeavor to throw out some hints with regard to furnishing a suitable library and other means of improvement for women as well as the men. It is highly important to teach them habits of industry, and to do this, we should have work always on hand. A good amount of sewing and knitting has been done for the city and the prison; yet we have not a sufficiency to keep them always employed, and should be glad to get work from those interested in the institution. We have religious services every day, and Sabbath school and preaching on the Sabbath.

Mrs. M. B. Davis,
Matron of the Bridewell.

Destruction of a Brewery—Heavy Loss.—On Sunday morning about half-past one o'clock a fire broke out in the brewery on Church st., near the Catholic Cemetery, on the Lake Shore in the North Division, known as Downer's Brewery, but carried on by A. P. Dickerson. It rapidly involved the whole structure, which was destroyed. It originated in a defective flue.

The building was owned by J. S. Saberton, and was worth between three and four thousand dollars. There was no insurance upon it.

The stock in the building which was burned, comprised about 1,500 bushels of barley and malt, 250 barrels of ale, 200 empty barrels and fixtures, valued in all at between three and four thousand dollars. There was no insurance upon it. E. Rawson had also 800 bushels of barley in process of malting, worth about $1,000 and uninsured.

A small house in the rear of the brewery owned and occupied by Michael Burns was entirely destroyed. Loss about $200; no insurance. A stable, where the brewery horses were kept, was also burned, but the horses and wagons were rescued.

Editors Chicago Press and Tribune:—During the last week a paragraph appeared in the Press and Tribune, stating that Godfrey S. Bryant had been appointed agent of the New York Central Railroad. We would state that said Bryant is *not* connected with the New York Central Railroad in any way, shape or manner; and furthermore that the undersigned are the only authorized agents of said Railroad in Chicago.

PRESIDENT MAKING.

A few of our Republican contemporaries have entered with great zeal and activity upon President-making. It is a dangerous and thankless business, and the industrious gentlemen who have undertaken to anticipate the decision of the party will have occasion to learn, before their jobs are accomplished, that their schemes are more perfect in conception than practicable in execution. The day for the nomination of the Republican candidate has not yet arrived; and nothing but harm—harm to the Republican cause and harm to the candidates unceremoniously thrust forward—can come out of the premature discussion of the Presidential question. A session of Congress will intervene between the present and the day of the meeting of the nominating convention; and during that session many new combinations which will materially alter the aspect of affairs, will undoubtedly take place. We beg the friends of the very respectable gentlemen who have been nominated in the newspapers, to hold their hands. The hour and the man will come together. Let them wait in peace.

BROWN AND BURR.

If recent facts and events in American politics have not impressed all patriotic men with the belief that the country has reached a point of political degeneration, where either reform or destruction is inevitable, the speech of Senator Brown, of Mississippi, in Tammany Hall, will leave no doubt on that point, unsolved. To refresh the recollection of our readers we quote a passage:

> Cuba must and shall be ours (cheers). The decree has gone forth, and there exists nowhere on earth power to remove it. The only remaining question for us to consider is this: by what means shall we make the acquisition? Three modes have been proposed—first, by purchase; that I regard as the most honorable; second, by conquest, and that I regard as the most certain (applause); third, from the agency of the mysterious operation of that power known in political nomenclature by the name of filibusterism, and that I regard as the most probable (laughter); but whether by one or the other, or by all of these agencies combined, I say again that Cuba must and shall be ours (cheers), and the power does not exist on earth to prevent it. If Spain is disposed to sell the Island, I, for one, stand prepared to pay for it. America is young, active, vigorous, prosperous, rich, and stands prepared to pay Spain one hundred millions, and, if that is not enough, to pay her two hundred millions of dollars, and more; and if she be not disposed to sell, then my next proposition is to propose an investigation of the present and past difficulties. For the purpose of having indemnity for the past and security for the future—if Spain be indisposed to sell—I would seize Cuba (applause), seize it for indemnity for the past, and then negotiate for future security. If we can't nerve the government up to that point; if the proverbial timidity of old age, which presses heavily on Mr. Buchanan and General Cass, can't be brought to that point; if they will not direct the extending spirit of American freedom, I would repeal the laws, and cry "Speed to the fillibuster, and let slip the dogs of war!" (cheers.) For one, my fellow citizens, I have grown weary of this thing, of having young, proud, glorious America knocking at the door of Spain, and asking for admission.

Fifty, nay, twenty years ago, the avowal of sentiments like these, by a Senator in Congress, would have been the prelude of an agitation which would have driven him from his seat, or covered him with such disgrace that it would have been little less than a pillory or a malefactor's cell. But, so marked and rapid has been the national degeneracy, that the speaker, with sentiments like these on his lips—declarations that are on a par with the "stand and deliver!" of the highwayman, and the morality which fills up penitentiaries and crowds the scaffold with those who practice it—is applauded to the echo by the crowd who listened to his piratical threats and cut-throat maxims—applauded in New York, the centre of intelligence as it is the focus of the commerce of the entire continent. The fate that overtook Aaron Burr, who, compared with this man Brown, was a statesman of profound sagacity and a philanthropist of rare virtue, is not forgotten. He proposed atrocities of less magnitude than those which the Mississippian avows. He probably never contemplated that his country would be involved by his agency in the piracy which he set on foot, all the odium of which he was willing to take upon himself. Yet he was hunted down by the men of his day as if he were an escaped convict. He was compelled, by the force of popular indignation, to fly the country whose good name he had threatened by his private act. He died in obscurity and poverty, and was carried to a dishonored grave. But in all his life he never said a thing so base as that, which, in the language of Brown, drew enthusiastic plaudits from that Tammany crowd.

What Brown's fate may be, we of course will not presume to say. It is more than probable that he will reach the acme of his ambition, and end his days in the Presidential chair. When the degeneracy of the nation has become so manifest that Mr. Buchanan, whose ideas in the *Ostend Manifesto*, the Senator merely elaborated and explained in his drunken harangue, is entrusted with the destinies of the Republic, there is no reason why Brown should despair. But whatever is done for or with him, it is time that Burr's name should be redeemed from the disgrace by which it is covered. If fillibusterism is to be the political idol of a party, it is due to the first and greatest of the fillibustering crew, that justice though tardy, should be meted out to him at last. A monument to Burr, and the re-writing of the national history should be begun at the same time. His ghost would rise and haunt the men who would inscribe on the pedestal of the shaft, that sentence which is the pith and marrow of Brown's infamous doctrine: "I want Cuba for the Extension of Slavery!" Burr was a traitor, but his treason was for his personal aggrandisement, not for the enslavement of others. Bad as he was, Brown is worse!

MASSACHUSETTS AND THE NATURALIZATION LAWS.

Everywhere the Republicans are speaking out manfully and indignantly against the recent action of the Massachusetts Legislature, in submitting to a vote of the people of that State a proposed amendment of the Constitution whereby foreigners are to be deprived of the right to vote for two years after their naturalization. There is no divided opinion upon the subject in any of the free States of the Union, and it is our deliberate conviction that even in Massachusetts, the Republicans will vote in solid phalanx against it.

We notice that the Republican State Central Committee of Wisconsin have issued an address, in which they disclaim in behalf of the Republican party of that State any sympathy with the Massachusetts movement, and quote from the Republican platform of that State to show that they are pledged against it. They conclude by saying:

> Standing firmly upon these principles, we do not hesitate to declare in behalf of the Republican party of this State that we condemn the passage of the Massachusetts law to which we have referred, as a departure from our settled rules of action; we protest against it as being in addition uncalled for and unwise; and we earnestly entreat the people of that State to review the action of their representatives, and to efface the single stain upon that escutcheon, which the Republicans of Massachusetts have so nobly borne.

This is well done, and we hope to see the Republicans of every State in the Union uniting in a solemn and emphatic protest against the Massachusetts proposition.

The European Complication.

WASHINGTON, March 25th.

Dispatches received at the State Department this morning, by the last arrival from Europe, from our Ministers at London, Paris, Madrid and Vienna, all agree that war seems inevitable, newspaper articles to the contrary notwithstanding. Mr. Dallas and Mr. Mason state that extensive preparations are being made, and matters on every side look warlike. Scarcely anything else is talked of, and the question absorbs all others.

From Vienna, our Minister writes that Europe is on the eve of an eruption. Complications thicken every hour, and great depression exists in every branch of industry.

En Route for the Land of Gold.

ST. JOSEPH, MO., March 24.

As for the chances for conveyance from here to the mines they are rather poor just now. There are two companies running expresses and they offer to carry through for $50; but imagine four mules about the size of large rabbits hitched to the running gear of an old buggy with a dry goods box on it, and you have a life size picture of a first class Pike's Peak Express. Stages are running up the river but carry few passengers. Most who start from here go with their own teams. St. Jo presents a busy appearance. One sees all kinds of people here—homespun, dandies, border ruffians, thieves, watch stuffers, gamblers of all descriptions. Patent leathers and stove-pipe hats will be at a discount after a few days tramp on the plains. An endless variety of turnouts are seen in the streets, from a wheel-barrow up to the old fashioned canoe-shaped prairie schooner. The most original one that I have seen just passed through the street en route for the Peak. A four-foot-ten Irishman was pushing a hand cart drawn by four sturdy Irish women, drawing with ropes. Their loading consisted of four washtubs, soap, washboards, &c., going to wash the "Gould dust" from the shirts of the miners. At first I thought it was a Mormon hand cart train, but I discovered his mark on the canvas, "Dennis Mahoney, Gol Digin," in large characters done in red chalk. As the company passed up the street to the ferry, they were honored with repeated and prolonged cheers from the multitude. Dennis recognized the compliment by raising his tile in the most approvd Michigan Avenue style. Many will start with more costly outfits and make less money than Dennis with his laundry.

The hotels are crammed to their utmost capacity. The writer has monopolized two blankets and one corner of the floor of a small room in company with sixteen other unfortunate individuals, for several nights—an accommodation not easily obtained. Horses and mules are high, ranging from one to two hundred dollars, and the smallest size I think are all in this market. Roads are bad, but many are starting to take the chances to be in the mines early. Reports from the mines are flattering. There is no doubt of the abundance of gold in the regions of the mountains. I shall start in a few days and will give you a description of my trip on my arrival, and will make arrangements to have several copies of the PRESS AND TRIBUNE in our company; for with Chicagoans it is a home institution, and the sight of it in the mines will be like taking an old friend by the hand.

Yours, MAX.

The Antioch College Fund.

Editors Press and Tribune:

Some persons on noticing that the property of Antioch College is advertised to be sold, have very naturally concluded, or at least apprehended, that the efforts put forth and the funds obtained for the purpose of relieving the institution from debt, have all been lost, or are to end in failure. The facts are these: When this last grand effort of rescue was commenced, the college property was, as it still is, in the hands of an assignee. The debts against the institution were nearly eighty thousand dollars, which with interest since accumulated, make up a trifle above that sum. These debts were in three divisions, and were by a sort of common consent, assigned to the West to provide for one portion, to New York and Pennsylvania another, and to New England the other. The West raised her portion of the money in August 1858, and placed it in the hands of President Mann, as Trustee. New York and Pennsylvania have raised almost the whole of theirs, and placed it in the hands of Charles E. Butler, Thomas Tileston and A. A. Low as Trustees for that branch of the fund. New England has paid in or pledged about three-quarters of the amount required of her, and as she gathers it, places it in the charge of Hon. Josiah Quincy, Jr., who acts as Treasurer for that branch. About six thousand dollars more is needed to be raised to complete the portion of the work assigned to New England, and this is confidently expected to be raised in the course of the next few weeks. When that is done, the work so far as begging and giving are concerned, will be finished. It will then remain for those who have supplied the means for the redemption of the college to organize a new corporation under the laws of Ohio, and to purchase the property by legal form of sale. The object of this is to vest in the new corporation a perfect title to the property which has so long been incumbered with debts to such extent as to imperil the permanency, embarrass the operations, and diminish the patronage of the institution. The sale of the property is a necessary step in the contemplated work. The friends of Liberal Culture, Liberal Christianity and of the present educational management of the College have busied themselves in gathering the money in order that they may be the purchasers when the property is sold, instead of having the institution pass into the hands of the Catholics or Presbyterians, both of whom, it is understood, want it. This institution has, in its five years of operation, had under its charge some fifteen hundred scholars, or an average of about three hundred through the whole time. It has all the while been, and is now, under the charge and Presidency of Hon. Horace Mann, whose fame as an educator and a man is co-extensive with science and letters. Both sexes are here admitted to equal opportunities of culture, and with none but the happiest results as regards character, progress and discipline. President Mann, in a letter before us, dated Feb. 5th last, says "we must have forty or fifty at least out teaching school this winter"—thus giving a glimpse of the way in which the benefits of the institution are being diffused. Antioch College is a first-class institution of liberal culture. It has no Divinity school connected with it, and is not intended to have any distinctive sectarian character. The most earnest and high-toned morality and Christian ethics are there inculcated, at the same time that all dogmas and denominationalisms are designed to be excluded. As this is the only institution of its class in a large circuit of populous country, possessing this non-denominational character, its continuance under the present management seems highly desirable, and is earnestly striven for by numbers of those who are not often aroused in behalf of interests very far from their own doors.

John Minor Botts on Slavery.

The Richmond *Enquirer* having attacked the Hon. John Minor Botts on account of a speech made at Powhatan Court House in 1850, and having called for a correct copy of that speech, Mr. Botts has sent them one with the following indorsement:

"No garbling. I hope the readers of the *Enquirer* will be informed that I have supplied the document called for. J. M. B."

The *Enquirer* then makes the subjoined extract from this speech.

"I am one of those who think Slavery, in the abstract, is much to be deprecated; and while I think that, as at present organized in the Southern States, it is a humanizing, civilizing, and Christianizing institution, as all must agree who will take the pains to compare the present condition of our slaves with the original African race; yet I regard it as a great calamity that it ever should have been entailed upon us; and I should look upon that man as the first and greatest benefactor of his country, whose wisdom could point out to us some practical and satisfactory means by which we could, through our own instrumentality, and without interference from our neighbors, provide for the ultimate emancipation and removal of all slaves in the country. I speak of this as a desirable thing, especially to the owners of slaves, who, I think, are the chief sufferers, but, at the same time, I fear it is perfectly Utopian to attempt it; but I have seen too much difference between the enterprise, the industry, and the prosperity of the free and the slave States, to doubt the advantage we would derive from it if it could be accomplished."

Public Plunder.

[From the New York Independent.]

The demoralization of the public mind seems rapidly progressing, in spite of all efforts of education and preaching to the contrary. The Mayor of New York is investigating a few of the cases of evident fraud on the city treasury, though covered up by referees and cunning officials. The State of Ohio has been plundered by a succession of officials, the later offenders charitably concealing the acts of their predecessors while imitating them. In every department of City and State government, instances of plundering and peculation—and what is the cause of all this? It is to be found in the prevailing feeling of profound respect mainly and almost only for those who are ostentatious in their expenditures, and are or appear to be rich. To obtain this respect, men involve themselves in debt and many in crime. Even where a simulated respect is shown for persons not spending money profusely or liberally, it is done in a tone and manner of condescension and as an effort of charity or pity. This current or tide of feeling it is difficult for the masses to stem; and so there is a general rush or movement downward. The tendency to fraud and crime is greater than the contrary tendency, and requires all sorts of check to maintain an honest, simple bearing and self-restraint. The admiration of rich men, merely as rich, is a pernicious feeling.

Missouri Bonds.

A bill passed the Missouri Legislature before the adjournment of that body, restraining the issue of any more State bonds prior to the 4th Monday of November next, but Gov. Stewart did not sign it.—*Chicago Press and Tribune.*

This is not a correct statement. A bill *did* pass both Houses of the Legislature *suspending* the issue of any more bonds to the Cairo and Fulton Railroad Company until the 4th Monday of November next, and this bill the Governor did not sign. The Governor retained it for his consideration. The bill had reference to no other than the Cairo and Fulton road.—*Missouri Republican.*

City Railroads in Baltimore.

BALTIMORE, March 25th.

The City Council has finally passed the Street Railway Bill, establishing five cents as the rate of fare, one fifth of which is to be paid as tax to the city—the latter to be appropriated for the purchase of a public park. There is a strong opposition to the measure on the part of citizens, but the rowdies are in favor of it.

☞ At the late election in the town of Auburn, N. H., there were eight ballots for town clerk, the rival candidates being father and son, Republican and Democrat; the father was at length elected by one vote.

PERSONAL AND POLITICAL.

Col. Colt, one of the wealthiest men in New England, twelve years ago mortgaged a lathe and some machinery to secure a debt of $750.

—Middleboro', Mass., cares for its widows. At a recent town meeting it was voted that all the widows in the town who pay no taxes should receive 200 herring on presenting an order from the Selectmen.

—Mr. Hunter, of New York city, has matched his famous horse Nicholas I. to run against the mare Tar River, owned by Mr. Hare, of Virginia, for $10,000 a side. The race is to take place this spring on the Fashion Course.

—The Savannah *Republican* says that "should the friends of the slave trade succeed in reopening it, even partially, the first result will be a perfect avalanche of blacks upon us from the border States; the second, an over-production of cotton; and, lastly, the utter prostration of the wages of labor."

—Agnes Wright, who, the Cincinnati *Enquirer* says, is a young and beautiful woman, and whom no one would suspect of having a tinge of African blood in her veins, was manumitted in the Probate Court at Cincinnati on Monday, by her owner, Reuben Wright, of New Orleans.

—The London *Critic* is at length enabled to state, upon evidence of the highest authority, that the author of the celebrated "Vestiges of the Natural History of Creation," first published in 1844, and which has since gone through several editions, was the late Dr. George Combe, who died about a year ago.

—"Some men," says the Philadelphia *Press*, "eagerly covet notoriety, even though it is rather of an unenviable than of a creditable character; and it is a matter worthy of consideration, whether Mr. Buchanan, clearly seeing that it is utterly impossible, from present indications, to win honorable fame in the position which he has so much disgraced, is not animated by the desire to immortalize himself as the last of the line of Democratic Presidents.

—The Indianapolis *Journal* gives these two reasons why Mr. Pettit should have accepted the Kansas Judgeship: First, Pettit is dead, politically, beyond all hope of resurrection, in that State. There is nothing ahead for him there. Second, it is pretty certain that with the appointment of Judge of the Territory goes a promise from the President to continue the appointment when the Territory is made a State, and the United States District Judgeship is a life office with a handsome salary.

—The *Union* of Wednesday remarks that, "if the Democracy cannot prevail against such a party as the Republican, it is because its organization is demoralized, its integrity questionable, its honor doubtful, and its character bad." It goes on to say:

"How is it that the Democratic party stands trembling before this Felix of sectionalism? How is it, if we are right, patriotic and national, that our ascendency is questioned by an organization which is equally without merit or political fairness? Has a cold selfishness, a wicked pursuit of individual ends, a disregard of the national welfare, taken the place of that earnest patriotism and devotion to country which distinguished the earlier days of the Democratic party."

Democratic Election Frauds in Maine.

The Northeastern part of the State of Maine, constituting the county of Aroostook, is a wild and sparsely settled district, within which there have been intimations from time to time, of extensive frauds practiced on the elective franchise, by the friends of the National Administration. The peculiar township and plantation organization in vogue there since 1840, has afforded special facilities for operations of this sort. Last fall, a desperate effort having been determined on to secure the return of one or more Administration men to Congress, the business was so greatly overdone as to excite general attention. A committee of the Legislature, specially raised to inquire into this matter, has recently reported. The New York *Evening Post* gives the following summary of last fall's transactions in this line, as disclosed by the committee's report:

> The principal fraud appears to have been perpetrated in Hancock plantation. One hundred and sixty-six illegal votes were given, and the residence of one hundred and fifteen persons, whose names are returned as having voted, could not be found. Large sums of money were expended in all these plantations, and paid directly to the voters at so much a head. Liquor was freely supplied, and at the polls in Hancock plantation great numbers of the voters were drunk, and some of them stripped themselves to the skin and capered about in the sight of women and children. Here, too, all the Republican voters were driven from the polls, and their lives threatened. In Hancock, Mr. Dickey, a Custom House officer, examined the votes and arranged them to his liking, after the style of his fellow-partizans in Kansas, who made such effective use of candle boxes and the Cincinnati Directory. In Madawaska, a Custom House officer stood all day over the ballot-box, counted and declared the votes. In Van Buren the voters were expelled from the room while the votes were counted, and a Mr. Hammond, an alien, aided in counting and declaring the votes. All the democratic votes, in clear violation of the law, were printed on blue paper, to insure a performance of contract on the part of the paid voters. All the legal requirements regarding the manner of conducting elections were flagrantly disobeyed, and the Collector of Passamaquaddy was himself in the field, making use of those appliances, so familiar to the party, headed by the author of the affecting Fort Duquesne letter.

Louis Napoleon and the English People.

The letter which we give below from the Emperor Napoleon to Sir Francis Head, appears in the London *Times* of March 5th. It was written by the Emperor to Sir Francis Head in acknowledgment of a note, enclosing three letters in defence of the Emperor which Sir Francis Head had addressed to the *Times*, and which were published in that journal some time ago:

PALACE OF THE TUILERIES, March 1.

My Dear Sir Francis:—I thank you for having collected together, in order to send them direct to me, the different articles which you have had inserted in the English journals, for you thus give me the opportunity of expressing to you all my gratitude for the sentiments of which you have not feared the spontaneous manifestation in my favor. I have seen in them, and I am much touched by it, a new proof that my old friends in England have not forgotten me, and that they know how much I always preserve for the English people the esteem and the sympathy which I felt during my exile in the midst of them. Even in writing to you to day, I detect myself in recollecting as a happy time the epoch, when, proscribed, I saw you in England. It is that in changing one's destiny, one only changes one's joys and sorrows. Formerly, the afflictions of exile alone appeared to me. To-day, I see plainly the cares of power, and one of the greatest of them around me is, without doubt, to find oneself misunderstood and misjudged by those whom one values the most, and with whom one desires to live upon good terms.

Thus I consider it very natural that the parties whom it has been my duty to oppose and to repress should bear me ill-will, and should seek the means to injure me; but that the English, of whom I have always been the most devoted and the most faithful ally, should attack me incessantly in the journals, in the most unworthy and the most unjust manner, is what I cannot comprehend; for, in truth, I cannot discover any interest they can have in exciting the public mind against France. If, in my own country, I chose to act in this manner, it would be impossible for me afterwards to restrain the passions which I should have let loose.

I have always entertained a great admiration for the liberties of the English people; but I regret deeply that liberty, like all good things, should also have its excess. Why is it that, instead of making of making truth known, it uses every effort to obscure it? Why is it that, instead of encouraging and developing generous sentiments, it propagates mistrust and hatred?

I am happy, then, among all those manœuvres of falsehood to have found a defender who, guided by the sole love of truth, has not hesitated energetically to oppose to them his loyal and disinterested voice. Believe, my dear Sir Francis, in my sentiments of friendship.

NAPOLEON.

Destruction of Duxbury Hall by Fire.

This fine building, at Chorley, Lancashire, England, was the residence of Wm. Standish, Esq., and has recently been almost totally destroyed by fire. The Boston *Courier* says:

> This ancient and stately residence, for centuries, of the Standish family, has a connection with the history of the famous Puritan, Captain Miles Standish. Captain Miles Standish was born in Chorley, near which Duxbury Hall is situated, and, according to his own account he was the rightful heir to the Standish "lands and livings surreptitiously detained for him." Duxbury, Mass., where Capt. Standish settled after fighting the battles of the Puritans, was named after the seat of his ancestors, and a representative of his descendants, some years since, visited England to make good the American Standish claim to the estate, but without effect.

Southern Michigan Railroad.

[From the N. Y. Tribune, 26th.]

A report will be made, we understand, in a few days by the Southern Michigan Railroad Company of the result of the business of the fiscal year. The result, we understand, will show that the road has earned the interest on its entire debt, funded and floating, beside making some extraordinary expenditures on account of road repairs, &c. The track equipage, &c., are reported to be in first rate order; the current fiscal year will enable them at least to earn the dividend on the guaranteed stock. The great embarrassment of this concern is its floating debt, which is about a million of dollars, and which is being slowly settled.

New Coal Fields.

We learn from the Marengo, (Iowa County,) *Visitor* of the 17th, that some men digging a pit for a mill in the Northwestern part of the county, near the German Colony, struck a valuable lode of lead; after examining it a short time, they went some distance towards the bluffs northward, and commenced digging to see if they could strike it again; they succeeded in an hour or so, not in finding the lead, but a thick vein of coal.—*Davenport Gazette.*

The North Platte Route to the Gold Mines.

[From the Iowa State Democrat.]

FORT KEARNEY, Feb. 28th, 1859.

I left Chicago on Thursday the 17th, with through ticket to Fort Kearney, via C. & R. I. and M. & M. R. R.'s, taking Western Stage Co.'s Concord coach at Iowa City. I left you prepared for a long and hard trip, but was drawn through without delay to Des Moines; the roads rather muddy. After leaving Des Moines we had good roads to the Bluffs where we arrived Sunday night, stopping with Jones of the Pacific House, a good landlord and No. 1 house. Crossing the State we passed a large number of teams and emigrants bound for the mines, and found they had begun to pour into the Bluffs, and had already a large number gone west of the Missouri. I heard no complaints from emigrants about procuring outfits anywhere in the State, about the same cost at each place.

Crossing the Missouri on the ice, which was thin, rotten and risky, coming very near letting us in, we had just time to call on the "Herndon" and mine hosts, Messrs. Miller & Richardson, whom no one can leave Omaha without giving a call, and took seat again in the Western Stage Co.'s coach, behind a fine team, for Fort Kearney, prepared, after any number of warnings, to be sloughed down, drowned in the Platte or killed by a treacherous Pawnee. We were rolled through in a little less than thirty traveling hours, to the other side of Jordan, all sound but awful hungry, not a slough or stream detained us a minute, we had a jolly crowd, and a quick and pleasant trip. The Platte valley we entered at Elkhorn and passed through considerable settlements to Loup Fork, some small towns, Elkhorn, Fremont, Wallace, Ashburgens and Columbus. After entering the valley we kept it all the way and *a finer road I never saw*,—to see the Platte valley itself is worth a trip to the mines; the Loup Fork we were ferried across without delay; they have two fine flat boats running here and another ready to be put in this side of Loup Fork. Settlements are few and far between; Grand Island City, (half burnt down a short time ago,) Crocker's and Henry's Ranches being all except a stage station or two. We forded the Platte without trouble or delay, crossing several small islands and numerous channels, the river bed apparently firm with about 18 inches of water. The government, I see, makes continued use of the ford in hauling wood from the islands to the Fort and they bring over very heavy loads without the least trouble, and I must say I am highly pleased so far with my trip and the stories I have been told about this route; bad roads, no settlements, streams unbridged, &c., is all a humbug, and you can refute them in toto, and I believe from what I can learn here from those who have been the other routes, that this is the quickest and best from Chicago to the mines, and I shall bring my teams this way. You tell "English" to be at the Bluffs with the teams by the middle of April sure, and come this way, for the road from Omaha is bridged by the finest road bridges I ever saw, and I am told here that it cost government over $60,000 (rather extravagant,) but in my opinion well spent. The bridges across the Pappillions, Elkhorn, Shell Creek, &c., would be good models for the St. Joseph and Burlington road croakers in Iowa and Illinois to copy from. I was also surprised to see the heavy settlements in the Platte Valley.

The stopping places all the way through from Iowa City I found good, with one or two exceptions, and there are stores, blacksmiths, &c., up to this place, this side of the Missouri and I am told here it is the only road from the Missouri that has any settlements 50 miles west. I came through in seven days from Chicago, and Charley, who started with me and went the St. Joseph route, arrived to-day. He came directly through, but was seven days from St. Joseph, by Hockaday's Salt Lake coaches, in making the trip, and all the passengers were loud in their denunciations of the road between here and St. Joseph. I am told here that seven days is a quick trip, as they consider it full 350 miles from the Fort to St. Joseph; from here to Omaha it is called from 180 to 190 miles, and I should judge it was correct. There are no stages running from here to any points on the Missouri River, except Omaha and St. Joseph, and I advise all who intend to visit the mines, either by stage or their own conveyance, to come by railroad to Iowa City, and to buy through tickets at Chicago and all the points where they can for Fort Kearney, as it gives one considerable advantage in seats and in being put through quick, and they will beat those who go by St. Joseph, if by railroad and stage, at least five days, and if by team, ten to fifteen. The teams here now from St. Joseph and Leavenworth have been twenty to thirty days on the road, while several teams from the Bluffs and Omaha have been but eight to ten days. No teams have as yet arrived from Plattsmouth or Nebraska City. There is one man here who came to Plattsmouth via Burlington road; he had to hack it through to the Mo., there being nothing but two horse hacks beyond the Des Moines, and then had to come up to Omaha and take stage there. The agent here tells me that teams generally made trips from Nebraska City and Plattsmouth in eighteen to twenty-four days. There has already passed here quite a number and variety of teams for the mines; hand carts "a la Mormon," wheelbarrows, ox-carts. "Pembina fashion," and two men with a "sheet-iron prairie flat-boat," I should call it, but believe they call it a "Tubogia." If what I have passed is a fair sample of the crowd "bound for the mountains," it will be a "young," energetic, but as motley a crew as was Napoleon's army on its retreat from Moscow. We think of going on to the crossing of South Platte in the Salt Lake stage; if we do I will write you from there.

I am truly, S. F. FORD.

Rivals for the Western Trade.

[From the N. Y. Courier and Enquirer.]

The Canadians are certainly an enterprisng people. We may boast of Yankee energy, foresight, and inventive genius, but the dwellers on the northern shore of Lake Ontario and the St. Lawrence are rivals of whom we must beware. They are fully alive to the importance of the growing trade of the West, and they mean, if possible, to secure a large portion of it. They intend to open routes that will offer inducements to Western shippers not now presented to them. It was but a short time since it was announced that a railroad was to be built connecting Lakes Erie and Ontario, and that lines of propellers were to be established, by which freight could be taken at any point on the Upper Lakes, and delivered in Montreal and Quebec at rates which would ensure the success of the enterprise. Then comes the intelligence that it is proposed to deepen the Welland Canal, so that it will accommodate vessels of considerable draught, and that the transhipment of cargoes may be thus avoided. Then we are told that our lively neighbors are surveying a route for a Canal which is to connect Lake Huron with the waters of Lake Ontario. The survey was commenced in '56, an appropriation for it having been made by the Provincial Legislature. For some reason, not apparent, this survey was suspended before it was completed. At the last session of the Canadian Legislature a further appropriation was made, and in November last a surveying party again commenced operations. This route, it is stated, will greatly shorten the distance by water between the States lying near Lakes Michigan and Superior and the Eastern markets. It is evident that the confidence of capitalist in the future growth and prosperity of Canada is such, and so much reliance is placed upon the facilities which she can be made to offer for securing a large portion of the trade of the West, that little difficulty is found there in securing the necessary means for constructing Railroads and Canals.

The enterprise thus exhibited by the Canadians should only give an additional stimulus to our own State. No route which can be constructed either north or south of us, can compete with the Erie Canal when it shall be enlarged and properly managed. This is so direct a route, and the inducements to send freight over it can be made so great, that it would necessarily receive all the business it will accommodate. The past has proved what can be done with our Canals, and he who cannot perceive what a bright future awaits them if they receive the attention they deserve, must be wofully blind. While Canada and Pensylvania are eagerly contending for the Western trade, it will not do for us to sit with folded hands.

Horrible Tragedy in Wisconsin.

By the Wisconsin telegraph line we are put in possession of the particulars of a most shocking murder committed in the town of Harris, Marquette County, Wisconsin, on the 26th inst., of a father and mother by an insane son. Mr. Jonathan Post, a Baptist preacher, and his wife, were killed yesterday, by their insane son. The lifeless bodies of the elder and his wife were discovered by a neighbor in the door yard of their house, about eleven A. M., with their heads split open, evidently done by an axe.

The deed is supposed to have been done about nine o'clock, in the absence of the other members of the family.

The murderer is about 30 years of age, and has been insane for several years. He was supposed to be harmless until this unfortunate occurrence. He made no effort to escape, and was secured by an officer.

This speaks trumpet-tongued for the speedy completion of the State Lunatic Asylum, and is a stinging rebuke for our dilatoriness in this respect.—*Milwaukee Free Democrat 26th.*

Maple Sugar in Pennsylvania.

The Somerset, Pa., *Whig* remarks:

"The season thus far has been most propitious for our maple sugar manufacturers. More sugar has been made the present season at this date than in any previous one. We hear of several farmers who have already made more than four thousand pounds. There is no means of exactly ascertaining the amount of this article annually produced in Somerset County, but we think five hundred thousand pounds would fall below the mark—more than is manufactured in any other county in the Union."

German States and France.

The minor German Governments foster the Teutonic enthusiasm which has been got up in favor of Austria, just in the exact ratio of their distance from the French frontiers. Bavaria is the most noisy; next to it, Hanover and Wurtemberg; but Baden, the Hessens and Nassau are lukewarm. We may soon hear of great demonstrations in the Saxon Principalities and Mecklenburg; but Oldenburg keeps quiet, and the great Republic of Frankfort maintains a dignified silence. Switzerland now only cares for railroads, and Denmark continues to be distracted by the Schleswig-Holstein squabble.

Wheat and Fruit.

We have made extensive inquiries of farmers about their prospects for wheat. Some speak quite gloomily, others hopefully. So far as we are able to judge, we think it safe to estimate our wheat crop at about one-half, provided it sustains no further injury. We expect to have apples plenty, but our peach crop is thought to be an entire failure.—*Schuyler Co. (Ill.) Citizen 23d.*

Southern Convention.

The Vicksburg *Southron* says: "We are informed by a letter received here from the Chairman of the Executive Committee of the Southern Commercial Convention, that, after mature consultation, the second Monday of May next, the ninth of the month, has been definitely fixed upon as the day for the assembling of the Convention."

MONOPOLY KINDLING AND STOVE WOOD.
SAWED AND SPLIT BY STEAM MACHINERY,
PATENTED MAY 15, 1855.
An opportunity is now offered to purchase the exclusive right to use Convers' celebrated Wood Splitter for this county—the same machine that received the gold medal at the Crystal Palace, New York, and silver medal at the Mechanics' Institute Exhibition, Cincinnati, O., has been practically tested for four years in all the eastern cities with unparalled success, and also in Cincinnati. It is no longer an experiment. $600,000 worth of kindling wood was manufactured and sold in New York City, last year, by these machines. To an enterprising man of small capital, the exclusive right to use this machine in this city will prove the best cash monopoly ever offered. The wood is prepared in different forms and supplied to every grocer, there reaching every family in the city. The machine is very substantial and simple in management, will saw and split hard or soft wood any required size very rapidly. Any person wishing to secure this very valuable machine can obtain all information by addressing L. F. THOMAS & CO., Queen City Kindling and Stove Wood Co., 5 and 8 Home street, Cincinnati, Ohio.

RICHARDSON'S MODERN
SCHOOL FOR THE PIANOFORTE.
Abridged Edition, with American fingering.
(Just published.)
PRICE, TWO DOLLARS!
—AT THE—
SIGN OF THE STAR SPANGLED BANNER.
What some of our Best Music Teachers think of it:
"The abridged edition of RICHARDSON'S MODERN PIANOFORTE SCHOOL, is a work the need of which has long been felt in this country by all good teachers. The only fault (if fault it may be called) that the original book had, was the introduction of the German style of fingering, which, of course, suited a German, but was very awkward to an American or English teacher. This has been remedied in the new edition, so that all parties can now be suited in both editions. The modern school is superior to all others on account of the special attention paid to the training of the fingers—tending to strengthen the weaker ones and make them all independent, one of the other. This is mostly, if not altogether, overlooked in the other printed instruction books in use, and has to be supplied extra when a pupil is under a good teacher. Especial attention is given to the scales; and by the arrangement of them, the pupil learns the major and minor together, becoming as familiar with one as the other—a most desirable acquisition. The arpeggio chords are given in all their forms. In short, a pupil with this instruction-book, and under a careful teacher, could not but be farther advanced in execution than by going through this book, than one who uses any other book."
WM. H. CURRIS.
"I fully concur in the above opinion." LOUIS STAAB.

H. M. HIGGINS, MUSIC PUBLISHER, 45 Lake street, has still on hand the largest stock of Musical merchandise kept by any other house in the Northwest. I am Sole Agent for the celebrated "Model Melodeon," made by Mason & Hamlin, Boston; also, agent for Lighte, Newton & Bradbury's PIANOS, with the "Patent Arch Wrest Plank," which is used by no other manufacturers in the world, and is the most important mechanical improvement. Instead of using iron, as most makers do—which gives the instrument a metallic and disagreeable sound—or using wood in the ordinary way, which renders it necessary to weaken the part of the instrument wherein the greatest possible strength is required—by cutting across the grain of the wood, Lighte, Newton & Bradbury have a method whereby they spring this patent Wrest into proper form by the aid of steam and powerful machinery. A strain of ten tons will produce no impression on the arch, while the fibres of the wood instead of being weakened by the continuity being interrupted at short distances, have their natural power of resistance greatly augmented by the peculiar form they are made to assume in the Patent Arch Wrest. Every instrument is warranted.

Special Notices.

☞ The Success which attends the use of Dr. J. Hostetter's Celebrated Stomach Bitters evinces at once its virtues in all cases of debility and diseases of the stomach. Certificates, almost without number, have been published, attesting its almost miraculous power in removing those painful and fearful diseases. And at this time it seems idle to do more than call attention to the great remedy of the age, in order to awaken public attention to its excellence. It is the only preparation of the kind that is reliable in all cases, and it is therefore worthy of the consideration of the afflicted. The Bitters are pleasant to the taste, agreeable in their effects, and altogether valuable as a tonic or remedy for indigestion.

☞ For sale by Druggists and dealers generally everywhere. mh24-2wd&w

☞ Herring's Patent Champion FIRE AND BURGLAR-PROOF SAFES—With Hall's Patent Powder-Proof Locks, the same that were awarded separate medals at the World's Fair, London, 1851, and the World's Fair, New York, 1853, and are the only American Safes that were awarded medals at the London World's Fair.

These Safes form the most perfect security against Fire and Burglars, of any Safe ever offered to the public.

$1000 REWARD will be paid to any person that can show that a HERRING'S PATENT CHAMPION SAFE ever failed to preserve its contents in an accidental fire.

The subscribers also manufacture all kinds of Boiler and Chilled Iron Bank Chests and Vaults, Vault Doors, and Money Boxes, or Chests for Brokers, Jewelers, and private families, for Plate, Diamonds, and other valuables.

No scrutiny can detect the artificial from the natural when adjusted to the head. de8-1y

☞ Sawyer's Fluid Extract of Bark, an infallible remedy for Fever and Ague, and the various forms of Bilious Diseases, Intermittent, Remittent, Chill Fever and Dumb Ague, having their origin in malaria of very fertile and marshy districts, prepared by Dr. S. S. Sawyer, Druggist and Chemist, and sold by Sawyer, Paige & Co., No. 16 Lake street, Chicago.

The remedy is prepared entirely from vegetable substances, and contains no mercury, arsenic, or anything that can prove injurious to the system. Its effects are those of a deobstruent and tonic, well adapted to restore the healthy action of the Liver and Stomach, whose functions are so generally impaired in this class of diseases.

Quinine and other tonics serve only in many cases to break the chills, but do not remove the diseases of the liver and other organs implicated, on which the chill and fever depend; hence the usefulness of the "Fluid Extract of Bark," (particularly in regions where Physicians cannot be readily consulted,) which contains all the qualities suited to the indications of these maladies.

Hundreds of testimonials in regard to the efficacy of the medicine from persons of respectability, have been given to the proprietor—but he does not make use of them as he prefers to have the medicine introduce itself securely by its merits.

☞ Notice.—The undersigned, Stockholders in the Merchant's Bank of Macon Georgia, are by the provisions of its Charter, made personally liable for its issues. The notes of this Bank will be taken by us on deposit on the same terms as Kentucky, Indiana and Ohio.

EYE AND EAR.

DR. UNDERWOOD,

Late Physician and Surgeon to the Opthalmic and Aural Institute of Louisville, Ky., whose reputation is so well known throughout the United States for skill and success as an operator on the EYE and EAR, has now been in this city ten months, during which time he has treated with a success truly astonishing, ELEVEN HUNDRED and EIGHTY-SEVEN PATIENTS, many of whom had been totally blind for years, and others whose vision was dim and obscure from long continued inflammation of the lids, have been made to see; and others, again, who had been entirely Deaf for many years, have been restored to hearing, and several others who had been Deaf and Dumb from infancy have been made to hear and speak—an operation believed to have never before been successfully performed by any Surgeon on the American Continent. The best proof, however, of the Doctor's skill and proficiency is that his rooms are continually thronged by the arrival of new Patients, not only from this and the adjoining States, but many of them come from distant Southern and Eastern States.

The Doctor never has nor will he in future make any charge for services which are not successful.

Boots and Shoes.

SOMETHING NEW!!!

MITCHELL'S PATENT

Metallic-Tipped Boot and Shoe.

An improvement has been applied to Boots and Shoes, by which a Great Saving in Expense is made. Every Boot and Shoe Dealer knows that Children will wear out at the toe the best constructed shoe in four to six weeks, and that it has hitherto defied the skill of manufacturers to obviate this difficulty.

THE "METALLIC TIP"

meets and overcomes it. A small piece of copper is neatly fastened to the toe of the Boot or Shoe, affording a complete protection to it, and rendering the shoe one of the most inveterate stamper ineffectual to kick or wear it out.

We present this invention with the fullest knowledge of and experience in its Practical Utility. Having now for nearly two years been subjected to the severest tests, it has by its own intrinsic merits, actually surmounted every objection that could possibly be brought against it, in the unvarying certificates which we have at a fair average of hundreds of others, will abundantly corroborate. We have no hesitation in saying that the Metallic-Tipped Shoe is destined to entirely supersede, for Children and Youth, the old style; and we consider it a moderate statement, that one pair of the Metallic Tips will outwear two to three pairs of the old style, making a saving of nearly two-thirds in the expense of shoes.

THE SKATER BELLE.

Along the frozen lake she comes
In linking crescents, light and fleet;
The ice-imprisoned Undine hums
A welcome to her little feet.

I see the jaunty hat, the plume
Swerve bird-like in the joyous gale—
The cheeks lit up to burning bloom,
The young eyes sparkling through the veil.

The quick breath parts her laughing lips,
The white neck shines through tossing curls;
Her vesture gently sways and dips,
As on she speeds in shell-like whorls.

Men stop and smile to see her go;
They gaze, they smile in pleased surprise;
They ask her name; they long to show
Some silent friendship in their eyes.

She glances not; she passes on;
Her steely footfall quicker rings;
She guesses not the benison
Which follows her on noiseless wings.

Smooth be her ways, secure her tread
Along the devious lines of life,
From grace to grace successive led,
A noble maiden, nobler wife.

Lord John Russell on the Federal Constitution.

Lord John Russell is now engaged in writing a history of the Life and Times of Charles James Fox, one volume of which has already appeared. Of course the writer is early confronted with the history of our Revolutionary struggle against the mother country, and, Englishman though he be, he very frankly affirms that the Americans were clearly right and the British Court wholly wrong in that controversy. At the close of his account of that struggle, Lord John pays a tribute to the founders of our Federal system, closing with a succinct statement of what he conceives to be the defects of that system, which cannot be without interest, and may even be instructive, to our countrymen. Writing without a trace of personal interest or party bitterness, he sums up those defects as follows:

"1. The President of the Republic was to be elected for no more than four years. Hence the whole mind of the people is kept in a continual state of agitation. Hence also, with the jealous instinct of a democracy, men of superior virtue and superior talent are set aside in favor of candidates from whose character and eloquence no predominant influence is to be feared. Aristides and Alcibiades are removed to make way for Cleon and Nicias.

"2. With this defect is combined another, which causes some surprise, especially in men who shook off the curb of the British monarchy, and ran their free career through the wilderness of political speculation. They took no security that the President should shape his policy by the prevailing opinion of the people's representatives. We have seen that, when the House of Commons resolved that war should no longer be carried on upon the continent of North America, the Ministry was changed, and the resolution was at once carried into effect. It could not be otherwise. But if the House of Representatives in Congress were to come to a similar vote, the President need not change his Ministers nor alter his policy. Thus the safety-valve of the British monarchy is wanting in the American democracy.

"4. Another difficulty is inherent in the composition of the Congress. The bodies are both elective; equally independent; equally free from the control of the Executive. What if they should differ on a vital question? A similar difficulty in Great Britain could only be temporary; either the people would support the House of Lords as in 1784, or the Lords would yield to the popular voice as in 1832. In America, it is not easy to say in what manner the American Constitution could recover from the shock.

"4. One spot remains, which oceans cannot wash out. The Slavery of the African race, which the North Americans had inherited from the ancient monarchy, was adopted and fondly cherished by the new Republic. Washington, from the impulse of his warm heart, set free by his will his own slaves; Jefferson, from the calculations of his cool head, deduced the conclusion that the black race ought to be sent back to Africa. The logic of the Constitution declared that all men were free; the pride and avarice of the slave-owners, disowning the image of the Creator and the brotherhood of nature, degraded men of a dark color, and even all the descendants of their sons and daughters, to a level with oxen and horses. But as oxen and horses never combine, and have no sense of wronged independence, oxen and horses are better treated than the men and women of African blood. All the cruelties which fear and jealousy induced the despotic tyrants of the Roman Empire to commit, are consecrated by law and permitted by custom in the Free States of the New World. Neither the civilization of commerce, nor the diffusion of letters, nor the refinement of manners, could eradicate the vices or prevent the crimes which God has affixed as a befitting curse to the institution of Slavery. Constitutional statesmen argued that, if the black race were acknowledged as men, they must rule in States where they had the majority: learned judges and able lawyers showed that slaves were property, and entitled their owners to its inviolable rights. But neither the philosophical dogma of the authors of the Constitution, nor the strict pedantry of law, can stifle the cry of outraged humanity, nor still the current of human sympathy, nor arrest forever the decrees of Eternal Justice."

WESTERN NEWS ITEMS.

NAVIGATION OF THE MAQUOKETA.—A project has been set on foot to test the practicability of navigating the Maquoketa river as high as this point; and if we are correctly informed in regard to the depth of water that can be relied upon in the driest season, we think the experiment will be successful. We understand the matter has been placed in the hands of energetic men, who will give it a fair trial.—Maquoketa (Iowa) Excelsior.

A DIVORCE WANTED.—Yesterday afternoon, a young woman, apparently about twenty years of age, called at the office of one of our city magistrates, and after some hesitancy, made known her business. It was to inquire "if the justice could divorce her from her husband." The magistrate of course answered in the negative, and then pointed out the steps to be taken; but so public a course she did not seem disposed to adopt. He inquired if she wished to prosecute her husband, to which she disavowed any inclination, and without giving her name, pulled her veil over her face and quietly departed. We are told there have been quite a number of similar applications, from females unacquainted with the laws for such cases made and provided.—Peoria Transcript.

THE RIGHT KIND FOR A NEW COUNTRY.—A well dressed female called at one of our hardware stores yesterday, looking up articles, as she stated, that would be necessary in the trip she intended making to Pike's Peak. Revolvers were handled with a genteel air and carelessness that intimated she was acquainted with the use of them, while bullet molds and other similar articles were discussed in that quaint and scientific style which betokened an adept in target practice. She did not close her purchases here, but promised to call again when she had made up her mind which of the shooters would be most suitable for her journey. We understand she was from Tazewell county, and presume she is one that will not be frightened at any small obstacles that may intervene upon the route.—Peoria Transcript.

A FRIGHTENED HORSE.—A gentleman riding a fine horse down Bridge street yesterday morning, turned the corner into Water just as the locomotive, with a train of freight cars, was approaching. The horse had never seen such a sight before, and for a minute stopped and gazed at it, his straightened ears and distended nostrils betokening his wonder and astonishment. As the iron horse approached, his wonder gave place to terror; he commenced trembling, and when the snorting monster was nearly opposite, his knees gave way, and he sank, with his rider, in the street, almost fainting away with affright. It was some time before he recovered sufficiently to rise, and was finally led away by his owner in apparently a very week condition.—Peoria Transcript.

AWFUL OCCURRENCE FROM A MAD DOG.—A farmer, whose name is unknown to us, residing about one mile from Kickapoo township, on the road leading to Edwards Station, in this county, has been for some time the owner of a large and powerful dog. On Wednesday morning last, the dog first showed signs of madness, biting not only his master, but his two sons, very severely. Horses, cattle and other dogs were in the same hour bitten. An attempt was made to shoot the infuriated animal, but he escaped in the direction of Kickapoo. When within a short distance of the town, he attacked a little boy belonging to Mr. Ousley, who was playing on the walk in front of his father's house. One of the little fellow's legs was awfully mangled; most of the flesh on a portion of it, above the knee, was stripped to the bone, and it was thought the limb would have to be amputated near the hip, to save the child's life, it being doubtful whether that would prove of any avail. The little boy is nearly three years old, was very chubby, bright and healthy, and considered remarkably promising. The dog was fortunately afterwards killed before any other persons were bitten. The above disjointed account we obtained from a letter written in great haste, and shall probably receive more particulars in a day or two.—Peoria Transcript.

SUDDEN DEATH.—We understand that Miss Riley, of Martin county, who has been visiting the family of Hon. W. E. Niblack during his stay at the Capitol, but who had a few days ago returned to her home, on Friday last felt unwell, and proposed to take a Seidlitz powder, and mixed the medicine of the two papers in different glasses: and instead of mixing the contents of the glasses and drinking the liquid whilst effervescing, she drank that of one of them and then drank that of the other. The effervescence occurred in the stomach, and the gas, resulting from the union of the soda and acid in the powders, rose up in the throat and partially strangled her. In the excitement, a dose of mustard was given to make her vomit up what what she had taken, and a physician was sent for in haste, but ere he reached the house she was a corpse.—Miss R. has had several attacks of hæmorrhage from the lungs during the past year, and was in delicate health. The immediate cause of her death, we suppose, is not known.—Vincennes Gazette.

Four Days Later from Europe.

Arrival of the Niagara and Alps.

NOTHING DEFINITE ON THE WAR QUESTION

HALIFAX, March 28.—The steamships Niagara and Alps arrived yesterday, from Liverpool 12th inst. The Niagara was detained off this port forty-one hours by fog. She passed the Africa, for Liverpool, on the 13th.

The Indian, from Portland, arrived out on the 10th; the Lebanon, from New York, on the 11th, and thd Edinburgh on the 12th.

GREAT BRITAIN.—In the Commons, the bill partially abolishing the church rates was rejected on the 9th, by a vote of 254 to 171. On the 10th, several amendments to the government reform bill were submitted, including one by Lord John Russell to the effect that it is neither just nor expedient to interfere in the manner proposed in this bill with the freehold franchise in England or Wales, and that no adjustment of the franchise will satisfy the House or the country which does not provide a greater extension of the right of suffrage in cities and in boroughs than is provided for in the bill.

Attention had been called to the Newfoundland fisheries question, and Ministers stated the appointment of a commission to settle the matter had been agreed to by France. The Neapolitan exiles had formally presented their address to the Mayor of Cork, explanatory of their action. They were meeting with a warm welcome, and their wants were being liberally provided for. Reform meetings, mostly in opposition to the Ministerial measure, were being held throughout England. The success or defeat of the Government was expected to turn on Lord Russell's amendment. In the event of a defeat, a dissolution of Parliament was talked of. The trial of five of the persons recently arrested in Ireland for treason, was progressing.

FRANCE.—*Le Nord* distinctly asserts that as negotiations are pending Napoleon consented to the insertion of the recent article in the *Moniteur* to show his moderation, but that if the present difficulties are not diplomatically solved—if Austria does not yield, he will not shrink from the consequences.

The *Times* Paris correspondent describes the note in the *Moniteur* as a wilful misstatement. It was submitted to the Emperor at midnight of Friday. He was informed that it was merely a reproduction in substance of his speech from the throne, and having read a few lines at the beginning and the last paragraph, he allowed it to pass.

The prospects of the war party in France do not look very bright; thanks to the force of public opinion and the spirit manifested abroad.

The daily *News* says Prince Napoleon's retirement will not be followed by any material change in the ultimate aims of the external policy of France. The *Globe* on the contrary remarks that every appearance within the past few days justifies the anticipation of a complete change in Napoleon's foreign policy.

M. Bouker, Minister of Commerce, fills, *ad interim*, the functions of Minister of Algeria, Laubet having declined the appointment.

On the Paris Bourse, on the 9th inst., under the rumors of the complete success of Lord Cowley's mission, Threes rose to 69f. 10c. On the following day a reaction of ½c took place. On the 11th, the market opened flat, but slightly improved, Threes closing at 68f. 15c.

The Paris correspondent of the *Herald* says hopes of peace are daily melting away under the influence of war articles which semi-official journals are instructed to publish. Military preparations continue unabated.

AUSTRIA.—Lord Cowley left Vienna on the 10th for London. The success of his mission is doubtful. A telegram to the *Times* says he is bearer of a counter-proposition, which it was hoped would prove successful.

The Paris *Constitutionel* says the effective force of Austria in Italy, is increased from 50,000 to 180,000 men. The movement of the troops to the frontiers for the purpose of being concentrated there confirm these reports; besides artillery, material had been dispatched to Pracensa within a few days. Cannon of large size have arrived at Pavia and Venice, part provided with carriages for the purpose of siege. It is asserted that the facts contained in this article came direct from the Sardinian Government to the Tuileries.

The Vienna correspondent of *Le Nord* reports the success of Lord Cowley's mission. The basis of arrangement is likely to be favorably received by all powers.

An Austrian dispatch to the Ambassador at London for communication to the British Cabinet has been published. It expresses a desire to unite with the latter in endeavoring to save, if possible, the horrors of a general conflagration. It says that it hopes to made its pacific intentions perfectly clear, and remarks: If Piedmont be prevailed upon to abandon her policy of provocation, hopes for tranquility in Italy may be entertained. The dispatch concludes:

"Austria will only draw the sword in defence of her incontestable rights and in maintenance of the treaties which she considers the only solid guarantee for good and evil."

PRUSSIA.—The speech of the Minister of Foreign affairs does not for a moment doubt their ability, in concert with England, to procure due respect to the existing treaties. England and Prussia are in this favorable position that they are to place themselves with impartiality between the antagonistic powers.

SARDINIA.—The Sardinian Turin correspondent of the *Herald* says the note in the *Moniteur* has fallen like a thunderbolt on the Court and Ministry. The result of the pacific declarations of France, may hasten the conflict with Austria single-handed. Exportation of forage and oats by the Lombard frontier is prohibited.

LATEST.

The Turin correspondent of the *Herald*, reports things more hopelessly warlike than ever. The King and Ministry want war at any price.

The Grand Duke Constantine had a distinguished reception at Malta.

CHINA.—Advices of January 19th, say that the war vessels Furious and Cruiser left behind in the Elgin expedition in the Yangtza Kiang, had been got out, owing to an unexpected rise in the river. Further operations against the Braves, at Canton, were expected. Admiral Seymour and the marines of the flag-ship had gone there.

Arrival of the California Overland Mail.

ST. LOUIS, March 28.—The Overland California mail, with dates to the 4th inst., arrived here last night. The dates from Victoria are 26th ult.

Governor Douglas had refused to permit the Americans at Victoria to publicly celebrate Washington's birthday. Much indignation was manifested.

The U. S. steamer Toucey was launched at Mare Island on the 3d inst.

Passengers by the mail coach confirm the accounts of recent battles between the troops and Camanches.

The Camanches had killed several families in Denton County, Texas, and run off their stocks.

Both the Camanches and Apaches were committing depredations on the Mail Company all along the route.

Lieut. Reed of Ft. Buchanan had pursued and captured a band of thieving Papagoes in the Mexican town of Santa Cruz. The Mexican authorities were highly indignant, and had called the people to arms to resist invasion.

The accounts from the Arizonia silver mines are of a very favorable character.

Dates from Salt Lake are to the 15th of February.

The Indians in the vicinity of Santa Clara had killed several white persons. Cummings had made a requisition on General Johnston for troops to chastise them.

Seventeen children captured by the Indians at a massacre of 140 emigrants at Mountain Meadows, eighteen months ago, had been recovered.

From Washington.

WASHINGTON, March 28.—Commander Russell has been ordered to the command of the receiving ship Independence at the Mare Island Navy Yard.

Col. J. Johnson of the 1st cavalry, and a relative of Minister McLane, left the city yesterday for Mexico, under orders, it is said, from the Government.

The new sloop-of-war Lancaster is to be finished and fitted out for sea with all possible expedition. She will probably be sent to the Pacific.

The Land Office situated at Buchanan, Minnesota, has been ordered removed to Portland, Minnesota.

Col. Lander will leave Washington on Monday to resume work on the South Pass wagon road for the purpose of repairing damages and shortening the route as far as practicable.

The Treasurer's weekly statement shows a nett balance in the Treasury of over $7,000,000. The receipts of the week were $1,800,000.

A Slaver and the Lost Steamer.

NEW YORK, 28th.—A letter from Apalachicola says one of the crew of the bark E. A. Rawlings has made a confession, in which he details the particulars of the fitting out of the vessel, and giving a brief account of her trip to Havana. He says the reason why the vessel did not go on her voyage to Havana was on account of a dispute which arose between the captains, they having two on board, an American and a Spaniard, one of whom, he says, was murdered, and the vessel taken into St. Joseph's.

We have as yet no positive confirmation of the report concerning the loss of the British war steamer Jasseur, but circumstances favor the presumption that the report is correct. Two English gentlemen, now in this city, informed the British Consul that they recently made the passage in this steamer from Port au Platte to Kingston, Jamaica, and the description of the vessel and the number of crew correspond to that of the steamer lost. The Jasseur is a gun-boat of 80 horse-power, and commanded by Lieut. John B. Scott.

From Havana.

CHARLESTON, March 28.—The steamship Isabel has arrived with Havana and Key West dates of the 25th.

The steamer Illinois, with the California mails of the 5th inst., was at Havana with her shaft broken. She will have to come to New York for repairs.

Sugar was quiet but firm at Havana, holders asking 9½ reals for D. S. No. 12; Muscovado unchanged. Molasses selling at 4 reals for clayed, 5 reals for Muscavado. Sterling exchange drooping, 10½ premium. Exchange on New York 60 days, 1@1½ per cent. discount, On N. O. short sight, par to 1 per cent. premium.

The schooner Tave, from Sugua for New York, with molasses, arrived at Key West on the 24th, leaking, and would discharge.

Later from the Gold Mines—Great Rush of Gold-Hunters—Dr. Doy.

LEAVENWORTH, March 28.—Dates from Denver City of the 14th ult. are received. The average yield with Rockers is $4 to $10 per day. Ditch companies are forming to carry water from the Platte to Cherry Creek—twenty miles.

The rush from here is beyond precedent. Upwards of 1,000 persons have arrived since Friday.

The suburbs are covered with companies in camp.

Messrs. Jones and Russell dispatched their first train on Saturday. Another leaves to-day.

The jury in the case of Doy under trial at St. Joseph have disagreed.

The people of Kansas vote to-day for or against the formation of a State Constitution.

Death by Abortion.

ALBANY, March 28.—On Saturday night a young woman named Mary Ann Snyder, aged twenty-three years, was killed by Mrs. Oselia Macton while attempting to procure an abortion by means of instruments. The abortionist is sixty-four years of age, and has carried on this business for years without detection. She is now in jail and will be indicted to-morrow by the Grand Jury, which has been in session a week, and has also found fifty indictments, making over one hundred indictments in this county since January 1st.

Wires Down.

BOSTON, March 28, 2 P. M.—The interruption of the lines east from Bangor still continues, but it is hoped that communication will be resumed during the afternoon. The line via Quebec, Woodstock and St. Johns, N. B., is also down to the eastward.

False Rumor about Gen. Cass.

WASHINGTON, March 28.—About 1 o'clock to-day the community was startled by the report that Gen. Cass had died suddenly, but he is in the enjoyment of perfect health, and transacting business at the State Department.

Financial and Commercial.

MONETARY.

MONDAY EVENING, March 28.

The day has been one of the most stormy "of the season" and hence transactions have been exceedingly limited. Currency continues plenty, and exchange scarce. Rates are in all respects the same as for many weeks past. We quote exchange 1¼; gold 1¼; street rates nominal at 1@2 per cent per month with few transactions and tendency to the lower figures. Discounts 10 per cent as usual. First class business paper scarce and in demand at our quotations.

COMMERCIAL.

MONDAY EVENING, March 28.

Heavy rains have prevailed all last night and throughout the entire day, and all kinds of outdoor business has been limited in consequence. The receipts on Saturday were as follows:

The steamer *Niagara* arrived at Halifax this afternoon, with Liverpool dates to the 12th inst. Breadstuffs are reported dull, without material change. Beef declined 2s.

There was an improved feeling in the Wheat market—especially for No. 1 and No. 2 Red Winter, which advanced 1@2c. Spring Wheat, however, was in limited demand, and quotations are but a shade better than Saturday. Sales amounted to about 17,000 bushels at $1.24@1.26 for old receipts No. 1 Red, and $1.28 for receipts bearing 2½@3c storage; $1.15@1.17 for No. 2 Red, new receipts; $1.10 for new receipts No. 1 Spring; 94c for old receipts Standard; 88½ for No. 2 Spring, new receipts; and 78c for new receipts Rejected Spring.

There were five or six boat loads of corn offered, but the market was dull, and but one boat load of Canal was sold at 70c afloat—a decline of 1c on Saturday's market. Most of the railroad Corn was damp, and sales were made at 72@73c per 60 lbs. on track; and 68c per 56 lbs. on track. The President of the Board of Trade this morning requested that dealers buy and sell Corn by the bushel—56 lbs.—instead of 60 lbs. as was customary to sell on track. The latter system works disadvantageously to the railroads leading into the city.

Oats were quiet, with a fair demand for Rejected, which show an advance of 2c. Barley very dull. Highwines inactive at 25½c. Provisions dull. Timothy Seed dull and drooping, with limited sales at $1.85. Clover inactive at $5.55@6.62½.

On Saturday last the canal boat Lockport took from this city to Norton & Co's mills at Lockport, 3,000 bushels choice Southern Illinois White Winter Wheat. This is "sending coals to Newcastle."

MILWAUKEE.—Receipts last week, 1,106 bbls flour, 9,555 bu wheat, 1,670 bu oats, 1,345 bu barley, 848 bu corn, 137 bu rye. The *Democrat* says of Saturday's market:

The markets for Flour and Wheat continue quiet, and the business is still small. In Flour there was one sale of 500 bbls of a favorite brand of country Spring Extra, at $6.10 f. o. b., but no other sales. In wheat there were a few scattering sales of Extra at 123c, Extra No. 1 at 115@120c, and No. 1 at 108c. But little Wheat was offered, and the market closes very quiet and inanimate. Oats are in better request, but prices show rather a wide range—47@50c—according to quality. Corn is in active demand and tends upward. Sales were made to-day at 68c for Shelled, and 67c for Ear.

CINCINATI.—The *Gazette* of Saturday thus reviews the markets of the previous day:

The Provision market exhibited no new features. The principal sales were of Bulk Sides, of which about 250,000 lbs sold at 8¼c. Nothing transpired in Bacon or Lard. Flour dull at $5.60@5.75 for superfine. Molasses declined to 34c. No change in Sugar. Wheat is in good demand, and the finer grades are firm. Corn is slightly easier. Whisky 24½c.

The receipts of leading articles at this port during the last 24 hours were as follows:

Flour, bbls	889	Wheat, bush	3584
Whisky, bbls	610	Oats, "	1873
Corn, bu	834	Barley, "	552

THE COMING WHEAT CROP.—Col. Johnston of the New York State Agricultural Society, has made the following estimate of the comparative yield of the wheat crop of 1858 and 1859, in the United States:

Estimated product for	1858.	1859.
New York	22,000,000	20,000,000
Pennsylvania	20,000,000	20,000,000
Virginia	20,000,000	18,500,000
Kentucky	10,000,000	8,000,000
Ohio	25,000,000	22,000,000
Indiana	15,000,000	13,000,000
Illinois	18,000,000	14,500,000
Other States	50,000,000	42,000,000
Total	180,000,000	158,500,000

We look upon all such attempts as the above to estimate the coming wheat crop as the height of folly. Anybody who knows aught of the State of Illinois and its wheat crop, will be at a loss to learn why the crop of 1859 is placed 3,500,000 bushels less than the crop of 1858, which we all know was inferior and "short," and we think it would puzzle the "Col." himself to give a reason for any such estimate. Should nothing interfere, we will have a good crop of winter wheat; and as to spring wheat, nobody can tell anything about it, as it is not yet sown.

ST. LOUIS.—On Friday last, Corn sold at 76@80c; Oats, 60@70c; Whisky, 25½@26c; Dry-Flint Hides, 18½c.

STEAM FERRY FROM COUNCIL BLUFFS TO OMAHA CITY.

Nebraska, No. 1.

This boat has the capacity to carry 12 Wagons and Teams at each trip, and has taken over at one load 300 head of Cattle; and she can make 40 crossings or more each way in a day, and will be able to ferry over from four to five hundred wagons and teams from sunrise to sunset each day.

We assure travelers who are going to the

NEBRASKA GOLD MINES,

Utah, California, Oregon, and Washington Territory, that the roads from Fairfield, Iowa City, Dubuque and points intermediate, by Council Bluffs and Omaha City, and up the north side of the Platte River, are better, nearer and more abundantly stocked with wagons, horses, mules and cattle, provisions and goods, than any other. And with the settlements and towns, and the regular and well-established line of Mail Coaches already extending to Fort Kearney, and soon to be extended all the way to the Mines, it is no longer a wilderness route through an Indian country, but can be traversed as safely and comfortably, and much more easily, than any of the roads through Missouri or Iowa.

There is not the same length of road in the United States, so level and entirely without marshes, sloughs or bad places, and so nearly straight. The streams on the north side of the Platte are all bridged, except the Loup Fork, and here the Western Stage Company have a good Ferry.

DR. G. J. LEEDS'

QUININE SUBSTITUTE,

Or, Nerve Tonic,

WILL CURE FEVER AND AGUE,

Also, Yellow, Chagres and Panama Fevers can often be prevented by the use of this invaluable remedy. The recipe is from a very celebrated Physician after thirty-five years experience in Hospitals and private practice in New York City, and has been tested in all sections of the country during the past six years with the most wonderful success. In the Western and Southwestern country, where Fever and Ague prevail, it has accomplished much by curing the disease as well as renovating and recuperating the system already shattered by the use of Quinine, Morphine and Mercury, or from too free use of the trashy nostrums, such as are daily being forced upon the unsuspecting invalid. To all suffering from prostration after disease I recommend and guarantee this Medicine as a perfect Tonic. To travellers in unhealthy climates, I would use the words of the well kown Captain John W. Munson, now of a Liverpool Packet Line, and many years in the Southern and South American Coasting trade. "I would as soon think of going to sea without a rudder as without the Quinine Substitute."

A PERFECTLY TRIUMPHANT REMEDY

FOR ALL DISEASES ARISING FROM

MALARIA;

Particularly Fever and Ague.

Chills and Fever, and all diseases arising from that condition of the Liver so universally produced by the *malaria* and fogs of the West. Such as diseased or turpid liver, enlargement of the spleen, or Ague Cake in the side, Billious, Intermitting, Remittent Fevers, and, indeed, all diseases arising from a billious condition of the system. Its ingredients are all vegetable, and perfectly harmless in their effects, and perfectly certain to cure. Reader, if you desire to save money and time, and get your health, take it at once, instead of those things which only palliate while they do not cure.

MOLINE, Ill., Feb. 19, 1857.

MESSRS. S. K. MANN & CO.—*Gents:* We find your Ague Balsam superior to any remedy in our market for the permanent cure of all malarious diseases. We cheerfully recommend it as worthy that great name it has wherever sold and used.

Very truly yours, RICHARDS & THOMAS.

GALION, Ohio, April 1, 1856.

To the sufferers of chills, fever and ague, I cheerfully submit the following: Having observed closely the effects of Dr. Mann's Ague Balsam in this vicinity for the past three years, I am well pleased with its remedial virtues as an antidote to malaria. I have frequently used it in my practice, and with entire satisfaction. From my intimate knowledge of this compound, I recommend it as safe, prompt and efficient.

N. E. HECKEDOM, D. M.

BLUFTON, Ind., May 17, 1858.

MESSRS. S. K. MANN & CO.—*Gents:* Having sold your Ague Balsam for the last three years to scores of persons in this vicinity, and closely observing its effects, we do not hesitate in saying we believe it the best remedy ever sold in Indiana, and will effectually cure chills, fever and ague without fail.

Truly yours,
PHILLIMAN & KEARNS, Druggists.

LOGANSPORT, Ind., Sept. 13, 1856.

DR. MANN:—Please send me one-half gross more of your Ague Balsam immediately. It is in great demand, and may be truly styled the King of Fever and Ague.

J. LYTLE, Physician and Druggist.

LEONIDAS, Michigan, June 18, 1858.

MESSRS. S. K. MANN & CO., Galion, Ohio.—*Gents:* I have to say that I have for several months been completely prostrated by chills fever and ague, and as I have a large family who were dependent upon my labor for their existence, I have tried in vain all the ague remedies in my reach (and they are legions) but I found none to cure until I used your Ague Balsam. I have never shook or had a particle of fever since the first dose, but I have since used the third bottle. I have now been sound for three months, and I am confident it is the only thing that will never fail.

Yours truly, G. P. WOOD.

The Leavenworth and Pike's Peak Express, Passenger and Freight Company, composed of the well known firm of Russell, Majors & Waddell, Government Contractors, with a cash capital of Two Hundred Thousand Dollars, has established a line for the conveyance of passengers, express goods and freight to the mines, via the Central, Fort Riley and Smoky Hill Fork route.

This company have the contract for carrying the mails. The Legislature of Kansas has established a Territorial Road. By this route the above company are establishing camping and feeding posts every twenty-five miles along the road, with ample accommodations for passengers and relays of teams. This route is up the valley of the Kansas river, and is well settled to within three hundred miles of the mines.

HANNIBAL AND ST. JOSEPH RAILROAD is now open for the transportation of freight and passengers its entire length, from the Mississippi to the Missouri river. The only route that tickets passengers to St. Joseph, and by which baggage is checked through. Passengers to Kansas, Nebraska, Pike's Peak and California save from three to five days by taking this route.

This route affords the most direct, reliable and expeditious communication with Kansas, Nebraska, Salt Lake and Pike's Peak than any other railroad. From St. Joseph the Fort Kearney route is the best—only 530 miles to Pike's Peak—and via the Marysville Cut-Off will reduce the distance to 475 miles.

Steamers leave St. Joseph daily to Iowa Point, Nebraska City, Omaha and Council Bluffs, and South for Atchison, Doniphan, Leavenworth, Weston and Kansas City.

Daily Stages leave St. Joseph for all important interior towns of Kansas and Nebraska, to Lecompton, Geary City, Hickory Point and Oskaloosa, connecting with lines to Topeka, Osawkee, Grasshopper Falls, Lawrence, and Fort Riley.

Passengers from Chicago and Northern Illinois, Detroit, Mich., and the East, will find this, in all respects, the most desirable, quickest, and shortest route to Pike's Peak.

Passengers from Chicago via the C. B. & Q. R.R. make close connections at Quincy with boat for Hannibal.

Trains leave Hannibal at 7:30 am for St. Joseph, or upon arrival of packet from Quincy.
